SHAW CATTLE CO.
SPRING BULL SALE

FEBRUARY 15, 2023

CALDWELL, ID || NOON MST

WELCOME TO SHAW CATTLE CO.'S *51st Annual Sale*

Since 1946, we have been steadfast in our dedication to consistent and reliable relationships. We have wanted every person in our lives to be able to depend on the fact that they know how they'll be treated. We feel this framework leads to an undeniable trust. We do this simply because that's how we would want to be treated in return. We live by the Golden Rule. It has treated us well in creating a place of respect for each other, reliability in our relationships, and love for all those we are around.

We breed our cattle this way as well. We don't try to be right on the edge and gamble with our genetics. We study pedigrees. We study phenotype. We are diligent in our mating decisions. We aim to build as many consistent groups of highly related bulls for you to acquire in volume and build a highly consistent product for your buyers. This is how you can rely on Shaw Cattle Co. genetics.

Over the past year, we have seen so many changes within our industry. We have seen a countless number of external factors play an impact in our daily lives. From one year ago to today, the fluctuations in our markets, the rise of our inputs, and the national economy has all created a turbulent time for us. It can't be ignored that is haven't been easy. However, we are dedicated to staying true to what we believe in. This storm will pass. We've seen them before. It simply comes down to we will keep charging on and be stronger because of it.

If you step back and look at macroeconomics for the beef industry, there's never been a more unified voice from every level in the rally we are about to see. The last few years have simply been brutal on national cowherd numbers. The drought has been so widespread. Now as we forecast this coming year, it seems moisture levels are stabilizing and these feeder cattle that will be available this year could be worth more than we've ever seen them worth. We feel it will be the payoff for the perseverance of the last few years.

We are anxious for you to see this group of bulls. We are so proud of them. They have been truly fun to develop and watch mature. We feel our numbers balance well with today's needs and are offering a larger number of Angus bulls than in the past. We invite you to come take a look at any time before the sale. They will be on display the day before the sale and invite you to our paella feed on February 14th and the sale on February 15th!

The Bull Business Brand.

It is with absolute pleasure and excitement that we invite you to our 51st Annual Sale!

We sometimes have to take a step back and reflect on the journey that has brought us here. It hasn't always been easy and without question, hasn't always been fun. However, the reward has been more than worth it.

We reflect on the vision Tom and Mary started and how that vision is being passed on to the now fourth generation raised on this ranch. It's so humbling to see how these youth are involved in so many activities and hold a high academic standard. We are so proud of them. We are proud of how Sam, Tucker, and Jaime have molded their children into fantastic young adults. This summer, Joe married his sweetheart Adyson, and our family is continuing to grow!

We attribute a lot of this to the consistent and reliable method of staying the course. We have never reached out to the edge of the cliff in any of our decisions. We've never truly gambled our heritage to chance. Steady, calculated, and a steadfast approach to producing the next generation better than the previous. Taking stride, the growth in little accomplishments and never trying to push the limits.

We feel this model proves consistency in our cattle. This consistency promotes reliability. You rely on our cattle to go out and perform, service enough cows to justify the investment, and provide you with steers that are marketable and heifers that will make cows. Long-term success can't be built on a strategy of always reaching for the stars.

We handle our relationships with this same mindset. If there are ever any issues that arise, you can rest assured that we will handle it in a reliable manner. We have built a program around family values, and we treat every person that we do business with as family. There is a peace of mind on both sides of the relationship when both parties can rely on each other.

This set of bulls falls right in line with this standard. We feel they are exceptional from top to bottom and every single one carries the /S guarantee. The females offered in this sale are from the heart of our herd. We are anxious to show them to you, and you are more than welcome to come see them anytime leading up to the sale.

We also invite you to join us for our annual paella feast the night before the sale, on February 14, and our sale February 15! Thank you for all the years of friendship and support.

LOT 189 | Shaw Dry Valley 11508

Angus cattle with balance in mind!

- Selling large sire groups - many 1/2, 3/4, and full siblings
- We select sires for balanced traits - calving ease, performance, and carcass all while maintaining a high level of maternal traits
- We do not tolerate cattle that do not last - temperament, structure, and production are keys to success!

• Flush brothers to Lots 332 and 333 sell as Lots 243, 288, and 340

We don't make excuses for cattle to stay at Shaw Cattle Co.!

We manage our operation in a way that creates constant pressure for animals to perform. If the animal doesn't excel and show promise, they are culled to make room for the next generation. We are constantly culling cattle that do not excel. We don't have select days or thresholds that cattle must meet to stay a bull or stay in the herd. By having a larger herd, there is always pressure to make room for the next generation. We cull cattle when they need to be culled, not when it's convenient or planned.

An astute cattleman and friend of ours put it this way about trimming a cow's feet – "Why would a seedstock breeder trim her feet and sell me her son? Isn't that saying he expects me to then trim the feet of that sons' daughters?" We couldn't agree more. If a cow (of any breed) looks like her feet are going bad, she is immediately moved to our recip herd or culled. She will never have the chance to raise her own seedstock progeny again. We feel it is our duty as seedstock producers to eliminate any problems that may carry on to our customers. Feet, fertility, disposition, soundness, etc... all are scrutinized daily at our operation. It is that pressure that cements our policy that if something does reach our customers, then we will stand behind it 100%. We are truly grateful for our customers and do our best to provide the best product we can for each and every one of you.

*You only have
the opportunity*
TO BUY OUR BEST.

Females are the key...

We have built a cow herd that we feel very proud of.

We put so much of our emphasis on the female at Shaw Cattle Co. and have for so many generations of cattle. They are the lifeblood and the foundation for the future generations and we feel like we owe it to ourselves and to you to maintain and scrutinize these cows to make the overall herd that much better. Our cows are constantly looked at, evaluated, researched, and culled in a continuous effort to build the best cow herd we can. We are confident that the bulls we sell carry that built-in maternal foundation due to the generations of strict breeding practices. We know that our customers rely on a replacement pen each year to be better than the mature cows they are going to replace. When we select a bull to breed to, we must know they are backed by a strong cow family and must know that the females we will retain out of that bull must carry on the quality that we can depend on for future generations.

Knowing each bull we sell carries the balanced-trait selection criteria we maintain, we feel we offer a bull that provides each rancher with the genetic tools to build their own foundation. We don't chase any extremes. We don't because there is more genetic risk, and we will not gamble with your trust. We will continue to select bulls that carry maternal function, performance, and acceptable carcass traits and then we test the bull in every way can with large contemporary groups, genomic enhance EPDs, and ultrasound these bulls so that we can have as much information on that bull as possible. We don't guess when we select bulls to breed to, and we don't expect you to guess what you're buying when you come to Shaw Cattle Co.
