

SELLING 98 ANGUS BULLS!

Annual Spring Bull Sale
MARCH 24, 2023

Friday at 12 noon (CST) | Fort Gibson, OK
At the Three Forks Ranch Sale Headquarters

Customer Service With Every Purchase

Welcome to the Sexton Genetics Spring Bull Sale!
Pretty exciting times to be in the beef business might be an understatement to say the least. It was a severe grind to stay hooked and get us this far. Optimism is the word that comes to mind. Moisture has been in abundance this winter and the long range forecast looks like that trend will continue going forward. Cow inventory's are at an all-time low, which is setting us up for record calf demand and prices to follow suit.

Strategy - A plan of actual design to achieve an overall aim/goal. What is your aim/goal? The ranches that will thrive in these times have to have a strategy, a strategy of genetics for maintaining sustainability in this business. Positioning your cowherd's genetics will help you reap the rewards now and down the road. A strategy of marketing your product, steers and heifers, or retaining your product, replenishing your cowherd with known genetics.

Marketing your product...74% of the bulls cataloged have met the CAB Targeting the Brand requirements. Basically the bulls carrying the CAB logo in the catalog, 50% of their offspring will grade CAB or higher, (industry average is 25% of Registered Angus bulls born). That's huge premiums for cattle feeders and they realize there is a difference and they are willing to pay for it. The last 4 years we have had 100's of cattle sired by our bulls consistently bring \$100+/head premiums over commodity cattle that sold in the same sale barn on the same day. Replenishing your herd, keeping heifers out of known genetics is certainly the easiest way of building uniformity. Type and kind, whether you're needing to add frame or lower frame there are bulls here to do it, add milk or take milk away, there are bulls here to do it.

We are proud to announce that all bulls have been evaluated by Flying Cow Genetics using iSperm technology. iSperm digitally records the semen sample on an iPad while instantly grading the motility and concentration. Morphology is evaluated manually but on a high resolution image that is much more reliable and accurate than a typical microscope evaluation.

Here at Sexton Genetics we want to do more than just sell you a bull. We want to be a part of your strategy. We want to help you market your calves. We have the program that consistently works. We want to supply your breeding bulls that you keep the heifers and they turn into long lasting productive cows. You can buy a bull anywhere, and we realize that, but when you make a bull purchase here you get more than a bull, you get customer service. Nobody in the industry will work harder for their customers than us. Please don't hesitate to call about any of the bulls or any of our customer services.

Thank you,
Mark Sexton

INDEX

Lots 1-14 Fall Long Yearlings
Lots 15-38 Spring Yearlings
Lot 39 Two-Year Old
Lots 40-98 Fall Long Yearlings

Directions to Three Forks Ranch sale headquarters

From Tulsa:

Take the Muskogee Turnpike to Muskogee, OK. Exit on Hwy. 62 West. Continue west to Hwy 16 North (also York Street). Go North on Hwy. 16 to Okay. Continue North through Okay on Hwy. 251A for 3.3 miles to ranch.

From Vinita:

From I-44, take Hwy. 69 South to Muskogee, then east on Hwy. 62 in Muskogee to Hwy. 16 North (also York Street). Go North on Hwy. 16 to Okay. Continue North through Okay on Hwy 251A for 3.3 miles to the ranch.

Schedule of Events

Friday, March 24, 2023

11 a.m. - Lunch sponsored by

Noon - Bull Sale

Cattle will sell in sale book order.

Ranch Headquarters

3.3 miles east of Okay, OK on Highway 251A

Sale Day Phones

Mark Sexton - (918) 541-0418

Dustin Layton - (405) 464-2455

Chisolm Kinder - (405) 747-4683

Steve Zybach - (806) 255-6904

Monty Markham - (580) 374-3052

Tony Sumpter - (580) 983-5008

Sara Sweet - (541) 297-8494

Air Transportation

Tulsa International Airport is only 45 minutes (40 miles) northwest of the ranch. Most major airlines service Tulsa.

Herd Health

All bulls have been vaccinated with Pyramid 5 + Presponse, Endovac-Beef, Bio-1 Pinkeye, Enforce 3, Anaplasmosis and Cydectin Pour-On.

Delivery of Sale Cattle

Free delivery the first 300 miles on bull purchases \$10,000 or more. No individual bull will exceed a delivery cost of \$300 per individual.

Absentee Bids

If you are unable to attend the sale but would like to bid, please contact the owners, sale manager, or any member of the sale staff.

Terms and Conditions

All bulls will sell under the suggested Terms & Conditions of the American Angus Association. Cattle will not be transported or ownership transferred until payment has been received.

ANGUSMEDIA EPDs contained in the hard copy of this sale book were current as of print date. Digital versions of this sale book can be viewed online at www.angus.org and will have EPDs updated every Friday with the exception of EPD references in footnotes and photos. Any PDF downloads from the website will contain EPDs current as of the date downloaded. *References: American Angus Association®, AHIR®, AngusLinkSM, CAB®, Pathfinder®.*

Bull Guarantee

All bulls selling have passed a Breeding Soundness Exam and have been deemed Satisfactory Breeders by Flying Cow Genetics. The bulls will not be guaranteed to freeze semen for the purposes of Artificial Insemination, Flushing, or IVF.

If the bull is injured within the first breeding season (in case of bulls making them functionally infertile) we will provide you a satisfactory replacement after you bring the bull back in suitable condition or issue a credit (salvage value) minus purchased price toward the purchase of any natural causes or physical harm. There will be mortality insurance available at the clerks desk if you choose to insure your purchases.

Breeding season is defined as the 90-day period following the first turn out date of the bulls. If you do not intend bull(s) for some time after the purchase, we suggest and additional BSE by a licensed Veterinarian to assure the highest conception rates possible. We suggest normal management practices in caring for your cattle.

What the Powered By Angus Logo means:

If you see this logo in conjunction with an individual animal or group of animals, you know that that animal is registered with the American Angus Association and backed by the power of data, programs and pedigrees of the Association. Not all Angus are REGISTERED Angus. Invest wisely in those that carry the Powered By Angus logo. For more information on the Powered By Angus program visit: Angus.org/PBA.

understanding the numbers

PRODUCTION EPDs

Calving Ease Direct (CED), is expressed as a difference in percentage of unassisted births, with a higher value indicating greater calving ease in first-calf heifers. It predicts the average difference in ease with which a sire's calves will be born when he is bred to first-calf heifers.

Birth Weight EPD (BW), expressed in pounds, is a predictor of a sire's ability to transmit birth weight to his progeny compared to that of other sires.

Weaning Weight EPD (WW), expressed in pounds, is a predictor of a sire's ability to transmit weaning growth to his progeny compared to that of other sires.

Yearling Weight EPD (YW), expressed in pounds, is a predictor of a sire's ability to transmit yearling growth to his progeny compared to that of other sires.

Residual Average Daily Gain (RADG), expressed in pounds per day, is a predictor of a sire's genetic ability for postweaning gain in future progeny compared to that of other sires, given a constant amount of feed consumed.

Scrotal Circumference EPD (SC), expressed in centimeters, is a predictor of the difference in transmitting ability for scrotal size compared to that of other sires.

Dockility (Doc), is expressed as a difference in yearling cattle temperament, with a higher value indicating more favorable dockility. It predicts the average difference of progeny from a sire in comparison with another sire's calves. In herds where temperament problems are not an issue, this expected difference would not be realized.

FOOT SCORE EPDs

Claw Set EPD (Claw), is expressed in units of claw-set score, with a lower EPD being more favorable indicating a sire will produce progeny with more ideal claw set. The ideal claw set is toes that are symmetrical, even and appropriately spaced.

Foot Angle EPD (Angle), is expressed in units of foot-angle score, with a lower EPD being more favorable indicating a sire will produce progeny with more ideal foot angle. The ideal is a 45-degree angle at the pastern joint with appropriate toe length and heel depth.

MATERNAL EPDs

Heifer Pregnancy (HP), is a selection tool to increase the probability or chance of a sire's daughters becoming pregnant as first-calf heifers during a normal breeding season. A higher EPD is the more favorable direction and the EPD is reported in percentage units.

Maternal Milk EPD (Milk), is a predictor of a sire's genetic merit for milk and mothering ability as expressed in his daughters compared to daughters of other sires. In other words, it is that part of a calf's weaning weight attributed to milk and mothering ability.

CARCASS EPDs

Carcass Weight EPD (CW), expressed in pounds is a predictor of the differences in hot carcass weight of a sire's progeny compared to progeny of other sires.

Marbling EPD (Marb), expressed as a fraction of the difference in USDA marbling score of a sire's progeny compared to progeny of other sires.

Ribeye Area EPD (RE), expressed in square inches, is a predictor of the difference in ribeye area of a sire's progeny compared to progeny of other sires.

Ribeye Area EPD (RE), expressed in square inches, is a predictor of the difference in ribeye area of a sire's progeny compared to progeny of other sires.

\$VALUE INDEXES

Maternal Weaned Calf Value (\$M), an index, expressed in dollars per head, predicts profitability differences from conception to weaning with the underlying breeding objective assuming that individuals retain their own replacement females within herd and sell the rest of the cull female and all male progeny as feeder calves. The model assumes commercial producers will replace 25% of their breeding females in the first generation and 20% of their breeding females in each subsequent generation. Traits included are as follows: calving ease direct, calving ease maternal, weaning weight, milk, heifer pregnancy, dockility, mature cow weight, claw set and foot angle.

Weaned Calf Value (\$W), an index, expressed in dollars per head, to predict profitability differences in progeny due to genetics from birth to weaning. The underlying objective being producers will retain 20% of the female progeny as replacements and sell the rest of the cull females and their male counterparts as feeder calves. Traits included are as follows (in no particular order): birth weight, weaning weight, milk, and mature cow weight.

Grid Value (\$G), an index, expressed in dollars per carcass, to predict profitability differences in progeny due to genetics for carcass grid merit compared to progeny of other sires. The underlying objective assumes producers will market cattle on an above-industry-average carcass grid. Traits included in the index are as follows (in no particular order): carcass weight, marbling, ribeye area, and fat.

Beef Value (\$B), a terminal index, expressed in dollars per carcass, to predict profitability differences in progeny due to genetics for postweaning and carcass traits. This terminal index assumes commercial producers wean all male and female progeny, retain ownership of these animals through the feedlot phase and market these animals on a carcass grid. Traits included in the index are as follows: yearling weight, dry-matter intake, marbling, carcass weight, ribeye area and fat.

Combined Value (\$C), expressed in dollars per head, is an index which includes all traits that make up both Maternal Weaned Calf Value (\$M) and Beef Value (\$B) with the objective that commercial producers will replace 20% of their breeding females per year with replacement heifers retained within their own herd.

For the Zoetis HD i50K for Angus percentile rankings, a lower value indicates a more favorable ranking for the trait. For example, a smaller numeric percentile ranking for Zoetis result in birth weight and carcass fat indicates lighter calves and leaner carcasses as the expectation.

If you are making selection decisions for traits that have an EPD provided by the

Association, then the EPD should be considered the selection tool of choice. The

EPD and accuracy account for all sources of information available on the animal of interest (e.g., pedigree, own record, weights/measures, genomic results). Using EPD and genomic percentiles separately leads to double counting information and will lessen selection efficiency.

ABOVE AVERAGE GOALS REQUIRE TARGETED BULLS

Aim High

The Targeting the Brand™ logo highlights registered Angus bulls with greater genetic potential to produce calves that meet the most challenging specifications of the *Certified Angus Beef®* brand.

Minimum Genetic Requirements

Marbling EPD (Marb)	+0.65
Dollar Grid Carcass Index (\$G)	+55.0

Only 1 in 4 non-parent Angus bulls qualify.

For more information on Targeting the Brand™ visit CABcattle.com.

YOU'VE EARNED IT

You've made a significant investment in your genetics, but does the market recognize that? The AngusLinkSM Genetic Merit Scorecard was created to objectively describe the genetic merit of your feeder calves. The scorecard gives buyers the confidence they need to pay more for your quality calves.

In 2022, users of the Genetic Merit Scorecard earned a **\$12.94/CWT PREMIUM** on average. Give us a call and we can help you earn what you deserve.

• Powerfully designed purebred Angus bull that sells with no papers.

Don't buy an **imposter.**

Not all "Angus" bulls are **REGISTERED** Angus bulls.

If you see this logo in conjunction with an individual animal or group of animals, you know that that animal is registered with the American Angus Association and backed by the power of **data, programs** and **pedigrees** of the Association.

Invest wisely in those that carry the **Powered By Angus** logo.

Look for the **REGISTRATION NUMBER.**

For more information on the Powered By Angus program, visit:

Angus.org/PBA.

VIEWING THE AUCTION

The auction will be broadcast online at Bid.SuperiorLivestock.com and the pre-recorded videos will also be hosted there. You do not need an account just to watch the auction or view videos of the sale offering.

ONLINE BIDDING

Go to Bid.SuperiorLivestock.com for Superior's new online bidding platform. If you have not registered there before you will need to create an account. The first time you register an account you will receive a confirmation e-mail that you must click on. Once you have completed this, select the auction you would like to bid on and click the "Request a Buyer Number" button. The first time you request a buyer number you will be sent a confirmation code via text. Enter that code in the login portal and you will receive a buyer number. This 2-step verification process will only have to be done once and in the future you will be able to simply login and request a buyer number and receive it instantly for any auction. Once you have successfully registered and received a buyer number it will show your name and buyer number on both the video preview page and the online bidding page when you are logged in. If you have an account at LiveAuctions.tv you may skip the registration process and use those login credentials to request a buyer number as LiveAuctions is a division of Superior Livestock. For more details on registering an account and also how to bid, you may watch a tutorial at Bid.SuperiorLivestock.com/how-it-works.

TURN IN BIDS OVER THE PHONE

This is Superior's traditional method of buying cattle and is the suggested process for anybody who does not have consistent, high-speed internet. You still must register an account at Bid.SuperiorLivestock.com and request a buyer number. Once you receive a buyer number you will see the bid line phone number. Just watch the auction online and call in at least 2 lots ahead of the lot you are looking to bid on. A Superior Livestock representative will be with you on the phone and will assist you in placing bids.

**FOR HELP WITH REGISTRATION OR ANY PART OF THE BIDDING PROCESS
PLEASE CALL SUPERIOR AT (800) 422-2117.**
